CYLINDERS - TANKS

Industrial Manipulators

Dalmeccan offers a range of tooling heads for the “weightless” handling of cylinders - tanks. Simple to use, they allow the operator to move cylinders-tanks quickly, accurately and safely throughout the working area.

These manipulators have been custom-built, with specially adapted design, dimensions and picking systems to suit the specific requirements of the users and the various environmental conditions available.

CYLINDERS - TANKS

0936689

Partner PMC column mounted Manipulator, with suction cup tooling (Venturi) for gripping and manual rotation of boilers.

0733048

Manipulator with suction cups tooling (Venturi) for gripping and inclination of tanks.

0834317

Manipulator with suction cups tooling (Venturi) for gripping and handling of tanks.

1036834

Manipulator with pneumatic tooling for gripping, 90° pneumatic inclination and 180° manual overturning of cylinders of different dimensions.

9715419

Manipulator with adjustable suction cups tooling (Venturi) for gripping and handling tanks.

9815991

Manipulator with suction cup tooling (Venturi) for gripping and releasing the LPG tanks into the car.

1036938

Manipulator with pneumatic tooling for gripping and inclination of cylinders having different dimensions.

0630783

Manipulator with hooks tooling for gripping one or two cylinders.
