DALMEC - PALLETS

0001350

Manipulator with forks type tooling with 180° manual rotation for gripping and overturning pallets.

0732593

Partner Manipulator, column mounted version, equipped with jaws tooling for gripping pallets.

0835338

Forks tooling with manual rotation of the load.

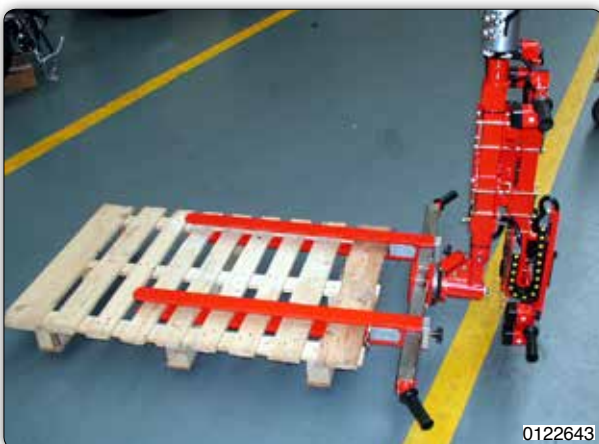

9816109

Adjustable forks tooling with block device.

130982

Forks tooling with pneumatic rotation of the load.

0122643

Adjustable forks tooling with with manual rotation of the load and telescopic controls.

0121929

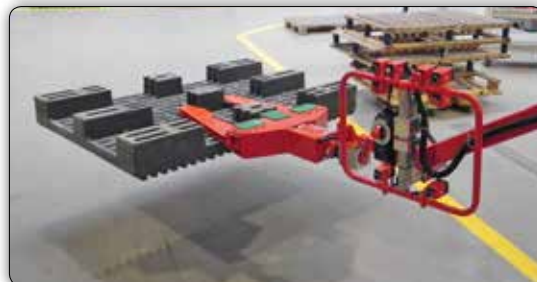

Forks tooling for handling pallets.

Manipulator with pneumatic tooling with manual of the pallet.

130347

Manipulator with forks tooling for handling pallets.

9817333

Manipulator with particular forks for gripping and handling stainless steel pallets.

0122206

Adjustable forks tooling with pneumatic rotation of the load and telescopic controls.

130760

Forks gripping system for particular pallets.

0223166

Manipulator with jaws type tooling with manual rotation of the pallet.

0426755

Adjustable forks gripping system for particular pallets.

9818978

Manipulator with jaws tooling and manual rotation of particular pallets.

0121873

Manipulator with jaws tooling and pneumatic rotation of particular pallets.

0427055

Manipulator with jaws type tooling and manual rotation of particular pallets.

9816492

Manipulator with forks type tooling and part presence sensor for handling pallets.

0019205

Partner Manipulator, column mounted version, equipped with jaws tooling for gripping, pneumatic inclination and manual rotation of plastic pallets.

0223277

Jaws type tooling for gripping and handling pallets.
